Network: Broadband Internet connection

Storage: 59 GB available space

Sound Card: DirectSound Supported (DirectX® 9.0c or more)

English,Japanese,French,Italian,German,Arabic,Korean,Polish,Russian,Simplified Chinese,Thai,Traditional Chinese

Very grindy, as with most cookie clickers. Nothing interesting. After playing for a day, won't open, freezes during loading.. This game is what I would describe as a wonderful, cheap time-waster. Those Saturday mornings when you can't be bothered to involve yourself in intense 5v5 matches on games like CSGO. This is the perfect little game. Wonderful idea, executed wonderfully and the 80s-90s feel is just a bonus on my behalf. Thank you devs for making this game.. 10/10 old school gaming done right. This is the best platformer I've played in... Ayachi best girl.

Listed playtime is wrong. I've played it a lot longer than that outside of Steam before I finally picked it up on here.

Probably the biggest disappointment of the game is the main character himself, which is rather unfortunately unsurprising, because that type of protagonist is pretty common for a Visual Novel.. Dont bother getting it, the scenery is ugly and scarce, no custom assets for route builders to use, no new rolling stock or locomotives. Literally someone could just build this route without buying it, put it on the steam workshop and you could get it for free as all the assets are already in the game. A waste of money, shame the first british steam route in a long time is this lazy. some of the best if not the best dlc on the market for train sim.. Wow this is terrible. I am such a huge Neil Gaiman fan that even when I read other reviews marking this as terrible I bought it anyway. I'm not sure what happened here. How did they make such an insufferable game? I made it through exactly 17 painful minutes of repeatedly clicking on the same highlighted ghostable items in a room listening to the same annoying sound effects over and over in order to slowly fill up a scare bar made of skulls so that it would beat that level before utterly giving up on this game. I wish steam had a refund policy. This could have been a sandwich or a terry pratchett novel. I wasted this $10. Don't do like I did. You could just open a screenshot of the game, put on a halloween music playlist, and click on one spot of the image for 10 minutes and imagine yourself to have beat that level instead of playing this game. It would be as interesting and less annoying.. Guys you cany go wrong with this addon! A must have for any fan of US Railroads, I just cant get enough of these EC Addons!!! (And I say this a an Aussie!)

Started of as good turned to bad halve way, which is very short, since it took 5 hours to do everything in this game. Such short amount of hours in RPG is unacceptable. Other things are not good too: You get randome encouters way to often, combat is boring, long and repetitive, numbers you see on accuracy are lies, otherwise I don't know how in 10 turn fight with acc at 95% i missed 4 out of 10 attacks, 3 of which was in a row, monsters have way to much HP. Story was okay, but generic. Music's forgetable and only thing I liked was few gravestone jokes. Overall not good.. Pretty boring...glad I got it on sale for like 1.00. I honestly did not play much of it but most of the beginning was all reading, very limited game play. When there was actual game play it was very direct and impossible to get wrong (choice a, b, c...get it wrong keep going until you get it right)..
Thinking back maybe it was still a tutorial but I doubt it,not was it mentioned. I might finish it at some point and give it to my kids if it is suitable...that might be only plus.. This game was fun as a kid, nowadays I can't stand it. The weaving back and forth and going back and forth for over 15 minutes to make sure you rescue absolutely everyone and do x and y lever puzzles to open doors etc etc etc it's just too much. It hasn't aged well at all.. Very interresting and cool game.
Totally worth your money, if you like this kinda games.. this game is super fun as casual game.

playing with your friends will grants u a good time.

campagin not hard but fun to complete.

if u like worms then u most like CB.

if they only add workshop for maps.
