About This Content

The Original Soundtrack for The Moon Sliver, plus an extra track that wasn't included in the final game.

Title: The Moon Sliver - Extended Soundtrack

Genre: Adventure

Developer:

David Szymanski

Release Date: 29 Oct, 2014

b4d347fde0

English

A short but varied soundtrack, sometimes touching, sometimes brooding...but never boring. For the very short time that it plays.

Did I mention that it's short? Just like the game it's derived from, oddly enough. But they're also cheap, and even more so in sales; so the merely curious might be best advised to wait 'til both are discounted, before taking the plunge.

Verdict: 8/10.
